

## Demonstrator – presentation manual

Author Maarten Hoogerwerf

Date / Version 31-03-2009 (v1)

This document lists the issues that can be shown using the different enhanced publications (<http://driver2.dans.knaw.nl>)

### Flame

- Show overall structure
  - Top-level description, publication on the left, enrichments on the right
- Relations-Tab
  - Structure is sometimes confusing or overwhelming, the tab relations gives an overview of the components in the EP
- Comments-Tab
  - Really? What about preservation? What about the integrity, peer review?

### Hebrew

- Show the digital author identifier (DAI)
  - Link to NARCIS
- Publication:
  - Multiple formats (FRBR?)
  - Show query in PDF (page 3)
- Go to enhanced query on front page
  - Definition & live execution
  - What about integrity of DB? Screenshot
  - What about identification? Countless number!

### Journalism

- Publication and Data
  - Multiple chapters: what about order? (Technical stuff)
  - Added Jump off page and metadata
  - Link to research information
- Preview of Data

### Physics of Fluids

- Three publications around a research-topic
  - 2 Restricted: Nature and Science
    - Nature: Only access from campus or using login
    - Science: Show preview of video and discuss different id's for same object
  - 1 Open Access
    - Video, very short publication

### Youth

- Demonstrate concept of discovery
  - Youth 1
    - Dataset
    - Show Relations

- Show parents
- Youth 2

### Imiscoe

- Many chapters
    - Data per chapter
  - Complexity
    - Original: zip, with zips, with directories, with zips, etc.
    - Should we do this *this* granular? Maybe just one ZIP
- 

### Common

- Persistent identifier to define links?
  - Officially we need protocol based URI
- Generic vs Custom
  - Generic overview complex (can be improved)
  - Structure different for EVERY EP so far
  - Researcher can create dedicated overview: see Flame Startpage
- Versioning
  - You can't update
  - What about EP is contents change?
- Ownership of EP
  - Who is the author of an EP? Can I create EP with materials from others?
- Long Term Preservation
  - Who is responsible for what?
- Enhancements within publication
  - Instead of 'around'
- The need for tools
  - Creating XML is 'monnikenwerk'
- Please stop aggregating!!!!
